

UTAH IS LAND OF OPPORTUNITY

Report of Statistical Department Shows State Is Rich in Possibilities.

PRODUCTION IS INCREASING

PARTICULAR STRESS LAID ON AGRICULTURAL POSSIBILITIES.

The statistical department of the office of State Auditor J. A. Edwards, yesterday filed its annual report for the year just closed. The report consists of fifty or more pages of typewritten matter and embraces a large number of subjects. The report is optimistic in the extreme, the comment being to the effect that Utah is rich in resources, is constantly growing and developing. Particular stress is laid on the agricultural possibilities of the state. Of the 5,000,000 acres of land in Utah, at least 3,000,000 are susceptible of cultivation under irrigation. The opportunities for homeseekers are unlimited, embracing land which under proper care is worth up to \$30 an acre. It is the opinion of the office, based on statistical returns, that, rich as the mines may be, and valuable as their product may be, agriculture will lead.

A pertinent paragraph or two reads: "Our state stands today unmatched in rapid development. Her golden promise is pre-eminent and the inducements she is able to offer to men with brains, energy and capital are unparalleled. Her plains extensive enough to be a nation's granary, and mountain and plain with each other in their adaptability to yield their wealth to labor, a climate matchless in its salubrity, the opportunity for successful enterprise is indeed bewildering."

Heritage of Wealth.

"This heritage of wealth—made possible by the sacrifice of the pioneers—was, fortunately, for succeeding generations, laid upon foundations both broad and deep, and the superstructure now being raised thereon is massive and substantial, and future years will witness the adornment of the noble work, made glorious and lasting by the efforts of a prosperous and contented people, enjoying the fruits of their toil, and the countless blessings of this great commonwealth."

"Our per capita of wealth production is rapidly increasing, placing our state in that regard in the first rank in the Union."

"Land is rapidly increasing in value; vast irrigation projects are under way; railroad extension is in evidence throughout the state; new coal fields are being developed; our oil fields rival those of California; our vast beds of copper promise to supplant the supremacy of Michigan or Montana; no longer has this or neighboring states need to send to Venezuela for material for road building, for here in Utah is a world's supply of asphaltum; new silver and lead deposits are being discovered and the beds of marble and other building material now in course of development bid fair to rival in quantity and quality those of Vermont and Indiana."

EXCITEMENT IN THE DUMA

President Nikola Khomayakoff Resigns After More or Less Stormy Discussion.

St. Petersburg, Dec. 16.—During an exciting session of the duma this afternoon Nikola Khomayakoff, president of the duma, resigned. Late tonight there was still much uncertainty as to M. Khomayakoff's position as he did not present his resignation to the chair of the duma where it was declared that the incident might be regarded as closed. Possibly, therefore, it may be reconsidered. Excitement arose over the discussion of the government bill to grant a credit of \$500,000 for the benefit of the employees of the prison administrations who were victims of outrages while on duty or of their families. The socialists and laborites hotly denounced the administration and the ineffectual torturing methods applied to political prisoners.

Deputy Rosanoff asserted that as a result of the rigorous rule 60 per cent of the prisoners died of consumption. The right deputies angrily protested against this, whereupon M. Rosanoff declared that the rightists possess less honor than the Russian convicts on the eve of execution. President Khomayakoff called upon M. Rosanoff to withdraw this expression. M. Rosanoff did so to the satisfaction of the president of the duma, but the rightists quitted the house in a body and went to the president's room, where they insisted that M. Rosanoff must apologize. Thereupon M. Khomayakoff resigned.

Valuable Item for Men

Health and strength hitherto unknown will be felt surging in rich red blood through the arteries and veins and life's greatest ambitions may be realized as never before, if the following special treatment is followed by those men and women, too, who are stricken with that most dreadful of all afflictions, nervous exhaustion, accompanied with such symptoms as extreme nervousness, insomnia, cold extremities, melancholia, headaches, constipation and dyspepsia, kidney trouble, dreadful dreams of direful disasters, timidity in venturing and a general inability to act naturally at all times as other people do. Lack of poise and equilibrium in men is a constant source of embarrassment even when the public least suspects it. For the benefit of those who want a restoration to full bounding health and all the happiness accompanying it, the following home treatment is given. It contains no opiates or habit-forming drugs whatever. Mix it at home and no one will be the wiser as to your affliction. The treatment is simple, thorough and correct. Leading druggists supply the main tinctures, extracts and essences in one-ounce bottles, ready to mix. Get three ounces syrup sarsaparilla compound, mix with one ounce compound fluid balmwort, and stand two hours. Add one ounce compound essence cardiol, and one ounce tincture cadomene (not cardamon) compound. Shake well and take a teaspoonful after each meal and one at bedtime.

CURFEW LAW IS INEFFECTIVE

Officers of Juvenile Court Are Powerless Under Present Ordinance, Says Report.

The juvenile court of Salt Lake county made its report to the governor yesterday. A summary shows these facts: Boys handled by the court, 457; boys handled out of court, 694; girls handled by the court, 86; out of court, 58; adults referred to other courts, 56; minors under 7, 25; disposition, boys, dismissed for lack of sufficient evidence, 14; with admonition, 88; on probation, 234; industrial school, 33; (initial training school, 4; suspended sentence, 10; continued, 46; to other institutions, 1. Girls: Dismissed on insufficiency of evidence, 6; with admonition, 4; probation, 21; industrial school, 21; suspended sentence, 2; continued, 14; Home of Good Shepherd, 2; orphanage, 6. The grand total of cases handled is 1,336.

A recommendation will be made by Chief Probation Officer Guardello Brown for another detention home, and for more probation officers, one for each 10,000 of population. Mr. Brown will also make recommendation with reference to the curfew ordinance. At this time the service is practically powerless in this respect, for the reason that every child arrested must first be taken to the home of his parents before being confined or restrained inasmuch as hours are required to take a delinquent home, a hundred boys might be roaming the streets. The parents very seldom permit the officers to take their boys away again, once they are brought home.

Mrs. McRaney's Experience.

Mrs. M. McRaney, Prentiss, Miss., writes: "I was confined to my bed for three months with kidney and bladder trouble, and was treated by two physicians but failed to get relief. No human tongue can tell how I suffered, and I had given up hope of ever getting well until I began taking Foley's Kidney Remedy. After taking two bottles I felt like a new person, and feel it my duty to tell suffering women what Foley's Kidney Remedy did for me." F. J. Hill Drug Co.

FLOCKS ARE IN GOOD SHAPE

State Board of Sheep Commissioners Makes Report to Governor of Satisfactory Conditions.

The state board of sheep commissioners in its annual report to the governor, states that there are 2,661,132 sheep in Utah of the estimated value \$9,000. All of these sheep were inspected. Nineteen bands were found to be slightly infected in the spring and sixteen in the fall inspection. The infection is spread mostly by rams, and these have been dipped twice. Fall dipping of rams has been found to be advantageous. The report says that while there is not sufficient money on hand for dipping purposes, the flocks are nevertheless in good shape. Sheepmen and flockmasters have co-operated with the commissioners and inspectors and have lent aid in keeping their herds free from scabies. Valuable assistance has been rendered, too, by the United States bureau of animal industry.

The expense of the service, the money available and other financial conditions are summarized thus: Commissioners—Appropriation, \$3,000; expenditures, so as to leave a balance on hand of \$375. Secretary—Appropriation, \$2,000; expenditures, so as to leave a balance of \$154.93. Contingent expenses—Appropriation, \$15,000; expenditures, so as to leave a balance of \$26.36. State Inspectors—Appropriation, \$10,000; expenditures, so as to leave a balance of \$66.53. There are still bills outstanding of the estimated amount of \$110.

Suit has been brought against Heber Benion of Taylorsville to recover \$513.55 expended by the board for disinfecting his sheep corrals and stock premises. The board makes a number of recommendations, including one to the effect that, in view of the insufficiency of funds, dipping may be done without the presence of an inspector. The commission consists of John E. Austin, R. L. Anderson and J. S. Ostler. Arthur A. Callister is the secretary.

A Personal Appeal.

If we could talk to you personally about the great merit of Foley's Honey and Tar, for coughs, colds and lung trouble, you never could be induced to experiment with unknown preparations that may contain some harmful drugs. Foley's Honey and Tar costs you no more and has a record of forty years of cures. F. J. Hill Drug Co.

RIO GRANDE TRAIN DERAILED

Traffic Between Salt Lake and Lehi Is Delayed for Several Hours.

All traffic on the Denver & Rio Grande railroad between Salt Lake and Lehi was tied up from 2 o'clock Wednesday afternoon until late Wednesday night. Trains due here last night over the road were from two to four hours late and arrived in the city over the San Pedro tracks. Rio Grande train No. 3, due here at 6 o'clock, did not arrive until 9 o'clock. The tie-up was caused by four cars leaving the track near Lehi on account of spreading rails. The track was torn up for a distance of several hundred feet, which necessitated the rebuilding of the track at this point before traffic could be resumed. At 3 o'clock yesterday afternoon the local office of the Rio Grande was notified of the accident and instructed to send out a wrecking train at once. The wrecking train did not leave the city, however, until 7 o'clock, an hour after No. 3 was due in the city. It was then discovered that several hours more would be required before the line could be opened and arrangements were made whereby the delayed train could enter the city over the tracks of the Salt Lake Route. The train arrived here shortly after 9 o'clock. Rio Grande train No. 4, eastbound, due out of Salt Lake at 8 o'clock, did not leave until several hours later. There was no one injured in the accident. The only damage was to the track, which was repaired after several hours' work. The Park City train on the Rio Grande Western arrived last evening an hour late, the delay being caused by heavy snowfall in Parley's canyon. Near the summit of the ridge the train was stalled in the snow.

TOO MUCH WORK FOR ONE.

Cache County Juvenile Court Says Probation Officer Is Kept Busy.

The juvenile court of Cache county yesterday filed its report with the governor. There were 184 delinquents, 71 of whom were put on probation. A total of 201 arrests of children were made, 45 boys and 29 girls who violated the curfew law forming the larger part of the number. Seventy-four cases of non attendance at school were considered and sixteen boys and nine girls were charged with truancy. Fines amounted to \$46.50. It is set forth that the field is entirely too large for one probation officer; in some of the towns men have voluntarily acted as probation officers without pay. It is recommended that the age limit be reduced from 18 to 15 years, inasmuch as it is extremely difficult for the juvenile court to handle boys after they have reached an age over 14.

For Christmas Gifts

You are always safe in giving something for the home. It is sure to be useful and decorative if you buy it here. If bought at the prices we are now selling it will save the giver money and not please the recipient less. The reason is: We are selling high-class bric-a-brac, brass goods, electroliers and reading lamps at greatly reduced prices.

These goods were, mostly, bought for our new store, but Christmas is here and the store is not ready.

We don't want to move them and you may have the big end of the profit.
